HIGH/MARYLAND STREETS

High and Maryland Streets are the main street of Stanthorpe and host the Grand Parade and Grape Crush on Saturday afternoon. Road closures for both Streets will be put in place from early Saturday morning until midnight Saturday night. This area is by far the most congested of the Festival on Saturday.

For the purpose of applying for a Stall Site, High Street commences at the roundabout at the Northern end of Stanthorpe (Lock Street) and runs down to the Post Office roundabout at Railway Street. Maryland Street commences at the Post Office roundabout (Railway Street) and runs South to Folkstone Street. You will be required to designate whether you want to be located in either High or Maryland Street. High Street is also adjacent to Victoria Street which then runs down to the main entrance to Weeroona Park.

High/Maryland Street is **ONLY** available for the Saturday of the Festival.

High/Maryland Street is open to all types of stalls (food and non-food). The Standard Stall size is 4m (deep) x 3m (frontage). Large sites 3.1m to 6m (frontage) are available (at additional cost) however all stalls are limited to a maximum of 4m deep. Larger sites (greater than 6m frontage) are available upon request. Costs for these requests will be advised by the A&G.

Stallholders in High/Maryland Street are required to Bump-In early Saturday morning and be ready to trade by 9.00am. A&G staff will be available to assist with Bump-In from 5.00am. Larger vehicles/trailers are encouraged to arrive early before the street gets congested with smaller stalls.

High/Maryland Street Trading Hours

Saturday (only) 9.00am – 10.00pm (vacate site by 11pm)

Stallholders in High/Maryland Street will be expected to trade until completion of the fireworks. At this point pedestrian traffic reduces significantly. A&G staff will liaise with police with respect to progressively removing the road closures from the Folkstone end of Maryland Street. Stallholders should not expect to have vehicular access to pack up their stall until the road closures are removed and it is safe to do so. Pedestrian safety is paramount at all times. Traditionally Maryland Street opens up before High Street.
